### SUMMARY

Dynamic and results-oriented aspiring Full Stack developer with hands-on experience in React. Demonstrates a proven ability to deliver impactful solutions by applying software development best practices. Proficient in developing and maintaining robust React-based applications, adeptly integrating frontend components to create seamless user experiences. Passionate about building user-centric digital solutions and continuously learning new technologies to enhance technical skills.

### PROJECTS

#### EMI Calculator

Developed a responsive EMI Calculator app using React, HTML, and CSS to calculate loan payments with optional processing fees. The app offers a user-friendly interface, ensuring accurate calculations and seamless functionality across devices for an enhanced user experience.

**Technologies Used:** React JS, HTML, CSS.

#### Chat Application

Built a full-stack chat application using Node.js, React, MongoDB, Express.js, and Redux. The application supports real-time messaging with a responsive and intuitive user interface. Features include user authentication, dynamic chat updates, and efficient state management with Redux. MongoDB ensures robust data storage, while Express.js and Node.js provide a seamless backend for real-time communication.

**Technologies Used:** React JS, HTML, CSS, Redux , Node , MongoDB, ExpressJs

#### Food Hub

Developed a dynamic Food Hub application using React, Redux, and Bootstrap. The app offers a responsive and visually appealing interface for browsing various cuisines, managing cart functionality, and placing orders. State management with Redux ensures seamless updates, while Bootstrap enhances design consistency and responsiveness for an engaging user experience.

**Technologies Used:** React JS, HTML, CSS
